These look good....thanks. Hope I'm not too late getting back to you.

See you tomorrow morning.

Stephanie

How are these?
Let me know - I need to get copes made before 5 PM.

I was going to put the BODR and RAWP on a CD for the Twp.

Hi Rob,

Would it be possible to add a bit more detail, so the town really gets a feel for how this work will (likely) be conducted?

For example, could you include Table 4-1 of the BODR, along with Figure 4-5 and perhaps some pictures of actual dredge buckets?

Please also include Figure 3-4, to give a feel of where this fits into the overall LPRSA and illustrate some of the logistical hurdles presented by the work, as well as Figures 7-1 and 7-2, to address the capping and how the area will be left. Figure 2 in the AOC would also be helpful to show (to remind them how much sampling we did), and maybe also some figures showing contaminant concentrations.

We should be prepared to speak to how, if at all, the work will affect Lyndhurst's infrastructure, including roadways, water lines, etc., and how it will affect park usage.

Finally, can you bring a full copy of the BODR and Work Plan, or should I try to print them out? They will be handy to have in case unanticipated questions come up, perhaps even to give to them.

Thanks,
Stephanie

I have kept it simple - a couple of figures and project schedule
